

Technical Lecture - Tyra Redevelopment, the first major decommissioning scope by DUC

Thursday 12. November 2020

Time: at 18:00

Location: Aalborg Universitet Esbjerg Niels Bohrs Vej 8, 6700 Esbjerg

The presentation will be focusing on the 2020 removal and decommissioning scope of the Tyra Redevelopment Project. Pioneering Spirit - the largest construction vessel of the world, together with Sleipnir, the largest crane vessel of the world, will remove 50.000 mT of equipment. The presentation will include animations of the Tyra scope and video coverage from previous removal projects completed by Pioneering Spirit.

Presented by

Jens Kloster

Decommissioning Manager for Tyra Redevelopment

Total E&P Denmark
